## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to method of sensitizing a neoplastic cell to a chemotherapeutic agent using a reovirus, classified in class 435, subclass 325+.
- II. Claims 12-25, drawn to method of treating a subject with a proliferative disorder using reovirus, classified in class 424, subclass 204.1.
- III. Claims 26-30, drawn to method of preventing a neoplasm in a subject from developing drug resistance, classified in class 424, subclass 204.1+.
- IV. Claims 31-32, drawn to method of sensitizing a neoplastic cell to a chemotherapeutic agent using a virus, classified in class 424, subclass 204.1+.
- V. Claims 33-34, drawn to method of treating a subject with a proliferative disorder using a virus, classified in class 424, subclass 204.1+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are directed to different methods which use different reagents and have different end results.

Art Unit: 1642

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
